DataDesk 460/470

14.0" - 15.4"

Attaché case for Notebook and HP DJ 460/HP and Officejet H470 printer. Work right out of your case.

The professional, transportable and lockable office for working with Notebook and printer. The mobile computing equipment is perfectly protected through the case's aluminium construction with side walls made of the extremely light-weight and durable "Conpearl" fabric. Additionally, the DataDesk is lockable and the two keys are included in the scope of supply. The inner panel which takes in the hardware is manufactured from thermoformed ABS parts. The fixation of the Notebook is handled via 3M Dual Lock mounts and synthetic corner supports. The printer fits the opening it is meant for perfectly. Notebook and printer remain hard-wired in the case's bottom shell. The paper feed is processed under the Notebook, thus sparing space and preventing wrinkles in the paper. Two different mounts enable the connection of Notebooks of different sizes (up to 14.2 x 12.6 x 2.2 inch).

The power supplies of notebook and printer are connected via the 220V power socket on the case's outer shell. The detachable case lid offers storage space for mobile equipment in a number of compartments - one even featuring a combination lock.

Especially durable casing. 220V power socket on the case's outer shell. USB printer cable with 90° angle in scope of supply. fitting implementation of the printer.
